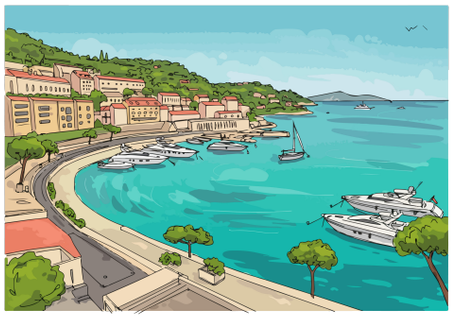
CRYSTAL



Crystal is a rising French singer who always returns to her favorite secluded beach on the Riviera between concert tours. Here there are no fans, no cameras, and no stage—only the sound of the sea and the warmth of the sand. Many of her newest songs begin right here as she spends hours walking along the shoreline. For Crystal, this hidden beach is more than a place to relax; it is where she finds both freedom and inspiration.

The series consists of AI-generated photorealistic images using natural coastal lighting and finely detailed scenery to capture the atmosphere of a summer day on the French Riviera. The visual style blends timeless glamour with a cinematic, lifelike appearance.
